

How to Receive a Timely PTI

A&WMA – May 4, 2006

Mike Hopkins

Ohio EPA - DAPC

Assistant Chief, Permitting

Talk About Today

- Pre-project, mid project and post project things to do to be successful

Pre-Project

- Inform upper management of need to obtain permit prior to construction
- Set up systems in company to alert you of new projects early in the project life
- Confirm existing sources have permits and are in compliance

Pre-Project

- Compile facility PTE
- Develop working relationship with permit contact.
<http://www.epa.state.oh.us/dapc/general/dolaa.html>
- Review and understand rules that typically apply to your facility (MACT, NSPS, etc)

Pre-Application

- Call permit contact and talk about:
 - ◆ Equipment to be installed
 - ◆ Exempt?
 - ◆ Expected emissions, expected rules
 - ◆ Application forms, the need for MSDS, Toxics, BAT cost-effectiveness
 - ◆ Anything unusual?

Pre Application

- Talk about
 - ◆ Modeling needed?
 - ◆ Pre-application meeting needed?
 - ◆ Periodic calls/meetings needed?
 - ◆ Controversial?
 - ◆ Timing

Submit Application

- Review application for completeness
- Get signatures
- Submit application
- Discuss with permit writer – unusual issues

Submit Application

- Make self available to help
- Need hearing?
- Discuss timing
- Need to get on the rush list?

<http://www.epa.state.oh.us/dapc/fops/rush.html>

Application Processing

- Periodically check to determine status
- Provide quick assistance
- Review draft terms when ready

Draft Issued

- Hearing needed?
- Make sure public notice is published on time (contact newspaper)
- Review terms, provide comments early in 30-day comment period
 - ◆ Set up record keeping/reporting
 - ◆ Limits, testing, terms OK?

“30-Day” Comment Period Up

- Contact permit writer... address any needs
- Determine any timing

Final Permit Issued

- Not done yet!
- Review terms
- Set up systems to collect and report records
- Do testing
- Need to appeal?
